# Frontline Supervisors Learning Series

## Frontline Supervisors & Workforce Leaders

### Event Description:

Discover how RCWT tools combined with Frontline Supervisor (FLS) competencies can help build a stellar FLS and DSP workforce.

Join us for an applicable demonstration of RCWT tools, theories and principles; blended with FLS imperatives! FLS Competencies were adapted from the **National Frontline Supervisory Competency Set, nationally validated standards** & developed by the University of Minnesota Research and Training Center. FLS Competencies have not been adopted by OPWDD, but they are being used across NYS in a variety of ways.

You will see the national interest in recognizing the importance of the FLS role in the success of community services, provider organizations and DSPs who are supervised and highly influenced by FLSs. These competency based education, training / Self-Development class supports and enhances the other DSP core competencies as well as the FLS core competencies.

*Regional Centers are coordinated by the NY Alliance for Inclusion and Innovation and funded by OPWDD.*
