

DSP Core Competencies - Required Training Crosswalk

NY DSP Core Competencies encompass seven goal areas and 23 competency areas that cover a broad scope of skills, knowledge and abilities needed by the Direct Support Professionals (DSPs) who support people with intellectual and developmental disabilities. The following chart illustrates how required training topics support the goal areas of the DSP Competencies.

TRAINING AREA

ABUSE

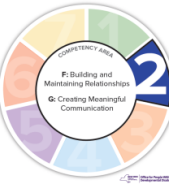

- Incident and abuse reporting and processing
- Laws, regulations and policies/procedures governing protection from abuse
- Abuse prevention, identification, reporting and processing of allegations of abuse
- Abuse, policies/procedures for incident/abuse (and Jonathan's Law)
